put an end to agreements of this character. 2. By the formation of monopolica which were formerly generally accomplished and which may still be occasionally accomplished, by placing the stock of competing corporations in the hands of trustees or by some other means, bringing under one management and control competing con-

This method is no longer usually resorted to, but a much more effective means of ne-compilshing the same result is the one which is now in vogue-that is, by having one corporation buy up the physical properties of its competitors, thereby creating a partial or complete monopoly.

The injurious effect of such a combina-

tion must be apparent to every one, but I can not restrain my inclination to fortify the correctness of public sentiment on this subject and to reinforce my own views by noting the language of the supreme court raffic case, 166 U. S. 322, in discussing the ery matter new under consideration: instions may be different in different kinds corporations, and yet they all have an ssential similarity and have been induced motives of individual or corporate agandizement as against the public inte In business or trading combinations ey have even temporarily or perhaps per amently reduced the price of the articles ided to or manufactured by reducing the sense inseparable from the running of by different companies for the same tose. Trade or commerce under these

mstauces may nevertheless be badly ufortunately restrained by driving out mean the small dealers and worthy one lives have been spent therein, might be unable to readjust themheir sitered surroundings. Mere price of a commodity dealt e paid for by the ruin of

************************************* MR, HANNA'S PENSION BILL

Will Pave the Way for Swindles on the Ignorant Negroes of the South.

(Special to The Post.)

Washington, February 5 .- Senator Hanna's bid for the negro vote, contained n the bill to pension ex-slaves, introduced by him yesterday, has stready stirred up the friends of the president, who feel that since Roosevelt has done everything in his power to merit the support of the blacks he should have it. Not much attention is paid to the fact that the measure was introduced "by request" for It is thought to be plain that Hanna would not have offered it at all had he not been fully cognizant of its probable effect.

The Evening Star, the arowed mouthpiece of the administration, has this to to say on the subject today: "Mr. Hanna will have occusion to thank his stars If the hill for pensioning ex-slaves introduced by him in the senate yesterday by request does not become an lungumout for fleeding ignorant and credulous colored. people all over the South out of many a dollar of their small heardings. His own intentions are not to be questioned. His own views of the measure are not as ret publicly proclaimed. Her the measure is wholly impracticable and can hever be written into law. There is just enough to it to encourage sharpers to play upon the simple-minded and to help along schemes for raising funds from the negroes from which only the rollectors will benefit. Sympathy for aged and scipless negrees is widespread, and in some cases it takes the form of an honest tion, which contains the germs of fraud so gignofic that even this strong government would stagger under sac load."

The following "knock" of the proposition from a local negro preacher is also pointed by the Star: "I find in the columns of your paper that Scuntor Hanna has presented a bill to pay bounty and pension explayer. I and also in that statement that this measure was advocated by the colored people of the South and elsewhere, and I want to correct if There is not an intelligent colored man in the South, nor any part of the United States, who believes or advocates any such measure. It is true that the ignorant colored people of the South and the backwoods preachers are acting as agents for the gong of white men who are behind this scheme. A further statement I would like to correct is one that these agents are not authorized to collect money. They charge each one 40 cents for entering his name upon their list and their subagents in the South ret 15 cents and 25 cents respectively, which is sent to them in Washington. I have personal information that they have collected large amounts of money from the colored people throughout the South."

Despite Hanns's protestations to the contrary the general impression here is that he will come out as a full fledged candidate for the nomination at the proper ******************************

CANTOR IN THE SOUTH.

In the Interest of Judge Parker for the Democratic Presidential Nomination.

(Special to The Post.)

New Orleans, February 5.—Borough President Jacob H, Cantor of New York today opened headquarters at the St. Charles hotel and launched the boom of Judge Purkey for the democrate procedural nomination in 1804. In an interview Mr. Castor stated that he would spend the remainder of the

south bere and then he will go to Texas. He held a number of conferences with prominent politicians during the day, and talked nothing but "Parker" from morning until night. He expects to meet

all the prominent depocrats from the interior of the State and from Mississippi who will New Orleans to allies with him he are the control of the
